Diploma — General Business

Ontario

EXPERIENCE

Drywall Installer & Finisher / Construction & Renovation Worker

September 2022 – Present

ONTIME CONSTRUCTION

Brampton, Ontario

- Participate in complete residential renovation and construction projects from initial framing through final finishing and client-ready completion.
- Read and interpret blueprints and construction drawings and establish accurate construction layouts.
- Perform wood and metal stud framing for walls, openings, rooms, and renovation layouts.
- Install new windows and complete associated framing, beams, and structural supports according to project requirements.
- Complete PEX water-supply work for residential water systems, including separate supply arrangements for houses and basements.
- Install ABS drainage plumbing for bathrooms, kitchens, laundry areas, and other required locations.
- Assist with heating, HVAC, and ventilation modifications, including creating new service points and relocating existing points.
- Install insulation and complete fire-separation work before drywall installation and inspections.
- Perform highly experienced drywall installation and finishing, including measuring, cutting, hanging, fastening, corner beads, taping, mudding, sanding, repairs, and surface preparation.
- Prepare finished drywall surfaces for painting and tile installation.
- Complete bathroom and kitchen remodeling projects from construction preparation through finishing.
- Independently install hardwood, laminate, and vinyl flooring, including measuring, cutting, fitting, and finishing.
- Install interior doors, trim, and baseboards with accurate measurements and clean finishing.
- Construct accent walls and complete custom interior finishing work.
- Install faucets, toilet seats, glass doors, accessories, and other finishing fixtures.
- Complete painting, final coats, touch-ups, corrections, and detail work before project completion.
- Work effectively with other trades and crew members while independently completing assigned construction and finishing tasks.
- Maintain clean, organized, and safe job sites and properly use a wide range of construction hand tools, power tools, and equipment.
